Frontier Web Conferencing

Welcome to Frontier

Frontier
Voice and Data Ltd

"here to make life easy…."

Frontier Voice & Data offers powerful and easy to use web conferencing that can be started online or from an Outlook toolbar.

What is Web Conferencing?

Web conferencing lets you connect with anyone, anywhere, in real time. WebEx combines desktop sharing through a web browser with phone conferencing and video, so everyone sees the same thing while you talk.

What do you need?

To get the most out of a WebEx web conference, here's all you'll need:
- A computer or wireless device with an Internet connection
- An audio connection - either through your computer or phone
- A webcam (optional)

Why meet online?

When you meet online, you remove many of the constraints that can make meetings a challenge — like getting everyone in the same place at the same time. With WebEx, you can:
- Save time and money in travel
- Easily collaborate with distant colleagues and clients
- Eliminate the hassle of emailing files and following up by phone.
- Make your meetings more productive and successful.

Its more than just meetings

Web conferencing lets you do almost anything you can do face-to-face. How you use WebEx is limited only by your imagination. For example:
- Hold a webinar or press conference.
- Demonstrate a product.
- Make a sales presentation.
- Conduct online training.
- Provide remote support.
- Collaborate on designs.

Key benefits
- Easy access anywhere, anytime
- Hold events online
- Easy access on mobile devices
- Flexible options to join a meeting
- Increase productivity with reduced travel
- Reduce your carbon footprint
- One click scheduling
- Secure conferencing
- No need for notes
- Control attendees
